EROSION PROBLEMS TO APPROACHES TO BLUFF BRIDGE - WILL BE RESOLVED WITH FINAL CONSTRUCTION OF APPROACHES

The following letter was received by Chairman Holmes:

DATE: February 8, 1973

TO: Blaine J. Kay, P. E. St. Hwy. Eng.

FROM: James L. Deaton, Dist. Eng.

SUBJECT: CR-433 (1) San Juan River Bridge and Approaches

Pursuant to your January 8, 1973 memorandum relative to a letter dated December 13, 1972 concerning water erosion and dirt cave-in on the captioned project, an on-site inspection was held on February 6, 1973 at 1:00 p. m. with the following in attendance:

Mr. Bill Frazier, Road Engr., B.I.A., Shiprock  
Mr. E. G. Jonas, Road Supt., B.I.A., Shiprock  
Mr. D. L. Stratham, Road Supvr., B.I.A., Shiprock  
Mr. Dale Holmes, Chairman, San Juan County Comm.  
Mr. Hugh Kirkham, Resident Engr., District Four

The above concluded that the project was completed in substantial conformity to the approved plans and specifications. We assumed the problem pointed out in Mr. Lathem's memorandum pertained to the approach roads to the bridge.

The approach roads are being build in stage construction and are not completed at this time. When they are built at the ultimate design, the matter that Mr. Lathem's concerned about will be corrected. Mr. Frazier will contact Mr. Lathem and discuss this matter with him and furnish us a status report.

Final inspection was held July 14, 1971, Mr. Frazier and Mr. Jonas represented the B.I.A. from Shiprock attending the final inspection. Also Mr. Richard A. Stack, Federal Highways Adm. attended the final inspection. A final acceptance report dated November 29, 1972 was made by Richard A Stack, Area Engr.
