MINUTES OF THE SAN JUAN COUNTY COMMISSIONERS MEETING HELD  
AUGUST 23, 1982

Time: 10:00 a.m. in the Commissioners room at the Monticello Courthouse.

Minutes of the previous week were read and approved upon the motion of Commissioner Bailey and the second of Commissioner Black and it carried unanimously.

CEDAR POINT ROAD REPAIR REQUESTED:

Mr. Bruce Medley, representing the community of Cedar Point, presented the following letter of petition for road repair:

August 17, 1982

Dear Commissioners:

We, the residents of Cedar Point, petition the County Commissioners for the urgent needs to our main roads. Our roads have depreciated to a condition of being dangerous and most costly to use.

We have been patient in waiting for the promised repair work. Now the time has arrived for our school bus to begin running and still the roads are not fixed.

We have committed ourselves to assist all we can with this work. We will donate the water needed and the rock material for this road repair.

Besides the 16 families who live on Cedar Point the year round, we have very heavy oil well traffic on our roads. The heavy trucks and numerous cars and pickups run day and night when there is this oil drilling activity and they have deteriorated the roads more than you may have realized. Our roads are really in a terrible condition.

Thank you for your cooperation.

Signed by--29 Cedar Point residents.

Mr. Medley also presented a letter from Robyn Miller concerning the condition of the Cedar Point Road. Mr. Medley explained that the residents of Cedar Point have begun a project to gravel their driveways for improved access for fire protection. Since the community has offered to make available the rock material for repairing the Cedar Point Road, the Commission agreed that in compensation for the rock material the county will load rock in trucks provided by the community for the driveway project.
