Mr. Francom began by telling Commission that he had showed the Audit report to the DHI Computing Service in Provo and that the Company stated that they could and would make the proper adjustments and begin the new year with a zero balance, and that to make any adjustments before that time would incur a great many problems and difficulties.

Mr. Francom further reported to the Commission that he had met with Bruce Hymus and that Mr. Hymus and/or his staff would be down to assist him in every way to balance the books. According to the report the County's accounts have been set up like a business, and carried on as set up in the past.
